

Professor Elena MORO, MD, PhD is President of the European Academy of Neurology (EAN) and Professor of Neurology at Université Grenoble Alpes, France.

An internationally recognized expert in movement disorders and deep brain stimulation, her research focuses on Parkinson's disease and functional neurosurgery. She has authored more than 200 scientific publications and is committed to advancing neurological research, education, and patient care across Europe. Within the European Academy of Neurology, she has served as Treasurer (2018–2020), Secretary General (2020–2022), President-Elect (2022–2024), and currently serves as EAN President. In this role, she promotes excellence in neurological care, education, research, and brain health advocacy across Europe.
