

Magda Mroczek, MD is a clinician and a board-certified neurologist originally from Poland. She is currently based in Switzerland and affiliated as a postdoc with Genomic Imaging Group, University of Basel (Prof Cichon) and as an attending physician with Department of Psychosomatic Medicine, University Hospital Zurich. She has a long-standing interest in neurogenetics, particularly in neuromuscular disorders, rare diseases, neurodevelopmental disorders and recently in psychiatric disorders, such as genetics of bipolar disorder. She worked on several large international neurogenetic projects and works towards increasing diversity in genetic studies through the collaboration with African Society of Human Genetics. Magda is a member of the management group of the EAN Neurogenetics Panel and RRFS Representative of the Muscle and NMJ Panel of the European Academy of Neurology.
